**C&E Strength** is the only product on the market that has pure L-ascorbic acid at 15% and pure tocopherol at 5% in a completely stable formula. The synergistic effect of vitamins C and E is enhanced by a unique delivery system that all together provide dramatic change in the skin.

Before
Condition: fine lines, wrinkles, dullness and laxity.*

After five weeks
Solution: applied Facial Wash (twice daily), C&E Strength (morning only), Hydrator Plus Broad Spectrum SPF 30 (morning only) and Collagen Hydrator (twice daily). Note: no professional treatments were applied.*

*Photos not retouched.

Key ingredients:

**Pure L-Ascorbic Acid (Vitamin C) (15%)** – an antioxidant and MMPi that is the only bio-available form of vitamin C for the skin; it minimizes the appearance of fine lines and wrinkles while promoting an even skin tone.

**Pure Tocopherol (Vitamin E) (5%)** – a fat-soluble antioxidant vitamin and emollient ingredient.

**Retinyl Palmitate (Vitamin A)** – an ester of vitamin A converted to retinoic acid in the skin; vitamin A helps to promote a clear complexion and an even skin tone.

**Bisabolol** – one of the principal active compounds found in chamomile; it calms and soothes the skin.

**Directions for use:** Apply a pea-sized amount to the face and neck in the morning after cleansing, toning and applying any PCA SKIN® treatment serums. Patients might experience a slight tingling sensation upon application. Finish with the appropriate PCA SKIN broad spectrum SPF product.
