

Hyaluronic Acid Overnight Mask

Intensely hydrate and rejuvenate skin overnight with this nourishing hyaluronic acid mask. A blend of corrective ingredients boosts skin radiance and luminosity while enhancing the skin's natural regeneration process. Additional natural extracts calm and soothe to encourage deep, restful sleep.

Key Benefits

- ✓ Intensely hydrates and rejuvenates skin overnight
- ✓ Boosts skin's radiance and luminosity
- ✓ Calms and soothes to encourage deep, restful sleep

Key Ingredients

- + **Sodium Hyaluronate** – a high molecular weight hyaluronic acid that occludes the skin, attracting and holding 1,000 times its weight in moisture within the skin. It provides smoothing and softening benefits while reducing transepidermal water loss (TEWL) and it increases moisture content in the upper skin layers.
- + **Hydrolyzed Hyaluronic Acid and Hydrolyzed GAG** – a low molecular weight hyaluronic acid and hydrolyzed glycosaminoglycan that penetrates through the skin to deliver deeper moisturization and significantly reduce deep wrinkles.
- + **Niacinamide (2%)** – a potent, yet calming antioxidant that delivers multiple important benefits to the skin. It helps to reduce TEWL and improve barrier function, which is critical for healthy, bright skin. Additionally, it helps reduce redness, skin yellowing, and promotes an even skin tone.
- + **Panthenol (2%)** – a pro-vitamin of b5 that provides deep moisturization and reduces TEWL to increase skin's overall moisture retention.
- + **Albizia Julibrissin Bark Extract** – an anti-glycation agent that reduces the formation of glycotoxins that damage dermal proteins and lead to reduced cellular function, or cellular fatigue.

Skin Type

- Dry
- Oily
- Combination
- Normal
- Sensitive

Directions for use

After cleansing, toning, and applying the appropriate PCA SKIN® treatment serums and moisturizer, smooth onto the skin at night to reveal radiant, hydrated skin in the morning. May be used nightly or as needed.

Retail: 1.7 fl oz

Ingredients

Water, Glycerin, Cyclopentasiloxane, Isopentyldiol, Propanediol, Dimethicone, Albizia Julibrissin Bark Extract, Niacinamide, Hydrolyzed Yeast Protein, Panthenol, Dimethicone/PEG-10/15 Crosspolymer, Phenoxyethanol, Sodium Chloride, Butylene Glycol, Sodium Hyaluronate, Sodium Citrate, Hydrolyzed Hyaluronic Acid, Pentylene Glycol, Fragrance, PEG-10 Dimethicone, Hydrolyzed Glycosaminoglycans, Beta-Glucan, Cellulose.

Clinical Study Data

Hyaluronic Acid Overnight Mask was evaluated in a clinical study of 32 patients with diverse ethnicities and Fitzpatrick types to assess its effect on the skin. **Hyaluronic Acid Overnight Mask** was applied once and left on overnight for eight hours with the following results:

Clinically-Proven Age-Defying Hydration:

- + 100% of subjects demonstrated a visible increase in facial moisture
- + 92% of subjects demonstrated a measured increase in moisturization*
- + 75% increase in skin hydration from baseline*
- + 94% of patients felt the product was nourishing to their skin
- + 88% of subjects agreed their skin felt smooth
- + 72% of subjects agreed their skin looked radiant

*Measured via Corneometer

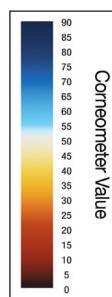

Pro Tips

Encourage patients to use this mask with **Hyaluronic Acid Boosting Serum** and **Hyaluronic Acid Lip Booster** for maximum skin-plumping and hydration benefits.

Baseline

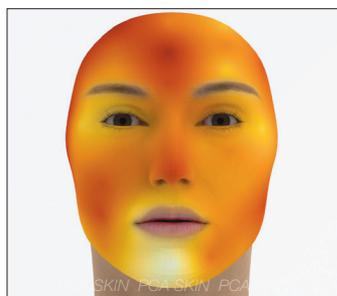

After eight hours

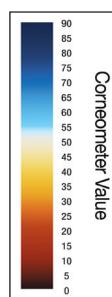

Fitzpatrick Type V

Baseline

After eight hours

Fitzpatrick Type II

An alternative imaging technique was used to measure moisture. Low moisture levels are represented by oranges and reds and high moisture levels are represented by light and dark blues.
